

Simulation Operations, Planning and Management (SOPM) Course

Committed to Medical Education Excellence

The Medical Education Simulation Center is pleased to offer the Simulation Operations, Planning, and Management (SOPM) Course. This course replaces the Simulation Operator course to focus on topics specifically to operations and oversight. Whether you are just starting out or have an established program, this course is for you. You will learn key factors to look at when building and designing a simulation space, aspects of scheduling, background management, and program management

Target Audience

Simulation managers, operations managers, simulation specialists, simulation educators

Objective: By the end of this course participants will

- Identify the key aspects of simulation management
- Be able to apply and integrate knowledge learned to simulation program

Course Fees and Information

- One Day Event
- \$1300.00 (UCI Affiliated)
- \$1705.00 (UCI Affiliated)
- Breakfast and lunch provided
- There will be ample time for other discussion with staff

Course Date

TBD (contact center)

Space is limited
